Cutting-Edge Care Without Cutting Corners: The Regenexx Physician Network

When it comes to blood-based musculoskeletal (MSK) care, not all approaches are created equal—**nor are the physicians who provide them.**

The **Regenexx Physician Network** is a major part of what makes Regenexx different.

With 100 **locations** and 110+ physicians worldwide, our network is **100% focused on orthopedics** and promoting the **best possible patient outcomes.**

Regenexx physicians provide an innovative MSK option that can **reduce surgery cost by up to 70%**¹, all while **keeping quality front and center.**

In other words: cutting-edge care that doesn't cut corners (or patients very much, given that **Regenexx procedures are non-surgical**).

A big part of how we accomplish this is by **holding Regenexx physicians and locations to exacting standards**, such as:

Strict qualification criteria

Rigorous training requirements

Comprehensive new patient evaluations

Nationwide standardized treatment protocol*

Custom-processed samples delivered via image-guided injection

*Without such a system, multistate employers are subject to plan design discrimination complaints.

The Regenexx Physician Network is different:

An MSK option delivered by a growing network of elite, specially trained physicians

Discover the Regenexx Physician Network Difference

What is the
Regenexx[®]
Corporate Program?

The Regenexx Corporate Program provides **MSK cost savings for self-funded employers**. According to a Validation Institute cost-savings analysis, **procedures using Regenexx injectates were ~50% less expensive than the surgery avoided**.¹

The program continues to see traction among employers, brokers, and third-party administrators who have chosen to partner with us. The Regenexx benefit is no cost to add and simple to include in any self-funded healthcare plan.

Learn how adding the Regenexx benefit can **reduce costs by up to 70%** on individual surgeries while offering members a new option in care.²

The doctors featured are independent contractors who have licensed intellectual property from Regenexx for the preparation of medical injectates. The inclusion of these doctors is solely for informational purposes, and nothing in this newsletter content or other marketing materials should be interpreted as establishing an employer-employee relationship, partnership, or agency between Regenexx and the doctors. Likewise, these doctors are not professionally trained or licensed by Regenexx.

Cost avoidance estimates for individual groups are not reflective of the potential cost avoidance estimates for another group. Any estimate of cost avoidance for a group is specific to their employee population. To understand how your company's surgical experience may relate to the Regenexx approach, you can request a [Regenexx Corporate Program Impact Study](#).

Cost savings estimates: Physicians within the licensed Regenexx network indicate the surgical procedure for which Regenexx provider patients are a candidate. The Regenexx Corporate Program then measures the actual cost of the procedure using Regenexx lab processes against the cost of the surgical alternative. While the Regenexx Corporate Program does post service reviews and assess a percentage of Regenexx provider patients, not all these cases have been verified by a third party. Fair cost estimates based on Denver, CO ZIP code. In some cases, a generic "arthroscopy" cost estimate had to be used when a detailed condition-specific estimate was unavailable.

Like all medical interventions, procedures using Regenexx lab processes have a success and failure rate. Regenexx provider patient reviews and testimonials in this email should not be interpreted as a statement on the effectiveness of regenerative therapy for anyone else. Industry professional reviews and testimonials reflect the experience of that entity with the Regenexx Corporate Program. To discuss what a partnership with Regenexx could look like for your company or client, [contact our team](#).
